## WORK EXPERIENCE

### UX LEAD

*Jatango, LLC; Cleveland, OH*

*Feb. 2024-Present*

- Lead UX/UI design for an early stage, mutli-vendor marketplace startup
- Established a working design system to create a consistent user experience across the product.
- Worked closely with c-suite to establish a robust product design strategy that catered to the needs of our target users, while also meeting business goals.
- Collaborate daily with a hybrid development team to translate designs into a working product.

### EXPERIENCE DESIGNER

*Razorfish; Cleveland, OH*

*Feb. 2022-Feb. 2024*

- Improved existing user experiences, and drove significant increases in customer engagement and acquisition for large clients, including Citibank, Southern Glazers, and Baldwin Group
- Identify areas of growth for clients through comparative/ competitive analyses.
- Produced user interface designs that balance user needs and client expectations/ requirements for B2C and B2B2C clients.

### PRODUCT DESIGNER

*Constellar User Design Solutions, LLC; Cleveland, OH*

*May 2021-June 2023*

- Designed inclusive products from conception to delivery that adhere to universal design principles.
- Worked closely with clients and their users to understand pain points limiting accessibility and overall usability of designs, systems, or services.
- Created novel solutions for combating the exclusion of marginalized communities, such as working with universities to create accessibility maps of campus for students with disabilities.

### RESEARCH ASSISTANT

*University of Chicago's Language Development Project; Chicago, IL*

*May 2020-June 2021*

- Developed and implemented effective testing methodologies in collaboration with the Principal Investigator.
- Facilitated experiments to assess children's use of cardinal-number gestures and analyzed data sets.
- Interpreted both qualitative and quantitative data to inform research findings.

### PROJECT MANAGER

*Epic Systems; Verona, WI*

*June 2018-April 2019*

- Managed a 9-month implementation of an electronic medical record application simultaneously at three separate hospitals.
- Delegated, guided, and monitored project implementation tasks.
- Integrated user feedback into the system configuration to optimize staff workflows.
